Notes:

1. Autodesk® Inventor LT™ 2015 software is provided both as 32-bit application and as 64-bit application for installation and use on the corresponding operating system only.
2. English versions of Autodesk Inventor LT will run on any language operating system. Other language versions of Autodesk Inventor LT will run on operating systems of that same language.
3. Autodesk Inventor LT 2015 is optimized to take advantage of the SSE2 extended instruction sets supported on Pentium 4, AMD Athlon 64, and AMD Opteron processors. Inventor LT 2015 will not install on computers that do not support SSE2. Several utilities are available on the Internet that report CPUID including supported instructions sets.
4. Autodesk recommends settings which allow Microsoft Windows to manage virtual memory as needed. There should always be at least twice as much free hard disk space as system memory (RAM).
5. Please refer to the [Autodesk published graphics card information](#).
6. Autodesk Inventor LT 2015 is available only on DVD (or electronic download in some situations). DVD-ROM drive is not required if installing using software download methods.
7. The multimedia learning components of the Inventor Help system, such as the UI Video Tour, Command Reference, and Show Me animations, require Adobe Flash Player 10. If it is not already installed, you can [download it from the Adobe website](#).
8. Provided by the Autodesk product installer.
